Nuke Compositor with 5+ years of feature and episodic VFX experience, specializing in CG/live-action integration, shot finaling, and sequence consistency. Technical background in Python, BlinkScript, and Nuke tool development, used to create artist-friendly workflows and reusable comp setups.

Technical Skills

Compositing: Nuke, CG/live-action integration, 2D tracking, keying, matte extraction, roto/paint, colour matching, colour grading, grain, shot finaling

Technical: Python, BlinkScript, Nuke gizmos, PySide2, Maya Python API, ShotGrid, Git, Linux

DCC Software: Nuke, Maya, Houdini, Unreal Engine 5, Substance Designer/Painter

Experience

Compositor - DNEG

- Composited feature and episodic shots in Nuke, integrating live-action and CG elements while maintaining colour balance, grain, edge quality, and shot continuity.

- Credits: Time Bandits, Haunted Mansion, For All Mankind (S04)

Toronto, ON
Feb 2023 - Sep 2023

Compositor - Digital Domain

- Composited feature and episodic shots in Nuke, including development of a reusable shot template adopted across the sequence to reduce repetitive setup and improve consistency.

- Credits: Ant-Man and the Wasp: Quantumania, Black Panther: Wakanda Forever, She-Hulk: Attorney at Law

Toronto, ON
Jun 2022 - Jan 2023

Compositor - Switch VFX

- Shot compositing across commercial and episodic projects, and introduced GeoTracker to support artist adoption in production.

- Credits: What We Do in the Shadows (S02, S04), The Expanse (S03, S04), Star Trek Discovery S04, Chapelwaite, Sneakerella, Spiral: From the Book of Saw

Toronto, ON
Nov 2017 - Jun 2022

Pipeline & Tool Projects

AOV Relight Toolkit | Nuke Gizmo

github.com/yanghyunsu/AOV-Relight-Toolkit

- A Nuke gizmo for AOV-based relighting in compositing. Adds virtual lights to rendered scenes using Normal, Position and Albedo passes.

- Used: Nuke Gizmo, BlinkScript, Python

Risograph Shader | Nuke BlinkScript

hyunsuyang.artstation.com/projects/Nqd2QJ

- Creates the look of Risograph inside Nuke using BlinkScript. Takes any RGB image and simulates the full Riso printing process: ink separation, physical grain, and final print assembly.

- Used: Nuke, BlinkScript

Arnold Render Manager | Maya Python Tool

hyunsuyang.artstation.com/projects/QK9XxL

- Built a Maya Python tool for submitting and monitoring Arnold render passes, with AOV management, resolution presets, and render setup features to improve artist workflow and reduce iteration time.

- Used: Python, Maya Python API, Arnold

Education

BCIT - Technical Arts, Advanced Diploma

Burnaby, BC | Sep 2025 - Aug 2026

Relevant Coursework : Visual Scripting, Scripting in 3D Application, Project Management for Technical Arts, Technical Arts I&II

School of Visual Arts - Computer Arts, BFA

New York, NY | Sep 2012 - May 2016
