Technical artist with 5+ years of feature and episodic VFX production experience at DNEG, Digital Domain, and Switch VFX. Brings artist-side production knowledge together with hands-on tool development in Python, Maya API, PySide2, and Nuke/Blinkscript.

Technical Skills

Languages: Python (primary), BlinkScript (Nuke), MEL

DCC Software: Maya, Houdini, Nuke, Unreal Engine 5, Substance Designer/Painter

Pipeline & Frameworks: PySide2, Maya Python API, ShotGrid, Git

OS: Linux (production environment)

Experience

Compositor - DNEG

- Worked within feature and episodic production workflows, supporting shot tracking, template building, and first-look shot development in collaboration with leads.
- Credits: Time Bandits, Haunted Mansion, For All Mankind (S04)

Toronto, ON
Feb 2023 - Sep 2023

Compositor - Digital Domain

- Built a reusable Nuke shot template using expressions that was adopted by other artists across the sequence.
- Credits: Ant-Man and the Wasp: Quantumania, Black Panther: Wakanda Forever, She-Hulk: Attorney at Law

Toronto, ON
Jun 2022 - Jan 2023

Compositor - Switch VFX

- Researched and introduced GeoTracker to the team, supporting artists in adopting the tool into commercial and episodic production workflows.
- Credits: What We Do in the Shadows S02&04, The Expanse S03&04, Star Trek Discovery S04, Chapelwaite, Sneakerella, Spiral: From the Book of Saw

Toronto, ON
Nov 2017 - Jun 2022

Pipeline & Tool Projects

LookDev Variant Manager | Maya Python Tool

- Built a Python tool in Maya that allows artists to save, manage, and share look development setups across scenes.
- Used: Python, Maya Python API, QtDesigner, Arnold renderer

hyunsuyang.artstation.com/projects/8B44dR

Arnold Render Manager | Maya Python Tool

- Built a Maya Python tool for submitting and monitoring Arnold render passes, with AOV management, resolution presets, and render validation to improve artist workflow.
- Used: Python, Maya Python API, Arnold

hyunsuyang.artstation.com/projects/QK9XxL

Risograph Shader | Nuke BlinkScript

- Built a BlinkScript-based Nuke tool that simulates Risograph print effects, including ink separation, grain generation, and print assembly.
- Used: Nuke, BlinkScript
